

My dear Sir

You are very exact in returning the inclosures. I did not want them back - not even Lord Salisbury's note, though as you have sent it I will re-send it to Lord F. Egerton.

I doubt if it be necessary to give Lord F more trouble about Gordon's M.S. and I should think all that remains to be done is for our Secretary to write for the loan of it, in order that a transcript may

has made, mentioning that he
has written in consequence of
the note of the Marquis of Salisbury
to our President.

However, I have returned
that note to Lord F. Egerton & he
will judge whether anything
more is required from him as a
matter of ceremony.

I am sorry to hear of
your influenza - I had it once or
twice & it rendered me unfit for
any business & quite as unfit for
any pleasure.

I think it is time that
something should be done about
W. Thoms's book - It ought properly
to have been ready before the end

four past year. Several members
have asked me what is coming
next - when it will be delivered
& what we have in prospect? I
referred them to the ~~last~~ list. They
wish to see a new one with the
members for the current year.

In what vol of the *Archaeologia*
are your papers on the Star
Chamber? At Bridgewater House
are several matters connected with
it, some of which it may be worth
while to include in Lord F. Egerton's
volume. I am

Believe me

Yrs very sincerely
